	APPROVAL OF STATE ENGINEER
	This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the
wat 960 Cer will inc pip pla the flo Sta all	wing limitations and conditions: This permit to change the Point of Diversion, Place of Use and Manner of Use of the ers of an underground source as heretofore granted under Permit 22559 Certificate 6 is issued subject to the terms and conditions imposed in said Permit 22559, tificate 9606 and with the understanding that no other rights on the source 1 be affected by the change proposed herein. The well shall be equipped with a 2-th opening and a totalizing meter must be installed and maintained in the discharge eline near the point of diversion and accurate measurements must be kept of water ced to beneficial use. The totalizing meter must be installed before any use of water begins or before the proof of completion of work is filed. If the well is wing, a valve must be installed and maintained to prevent waste. This source is ated within an area designated by the State Engineer pursuant to NRS 534.030. The te retains the right to regulate the use of the water herein granted at any and times. This Permit does not extend the permittee the right of ingress and egress on lic, private or corporate lands. The issuance of this permit does not waive the requirements that the permit der obtain other permits from State, Federal and local agencies.
The	amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not
to e	ceed 0.117 cubic feet per second, but not to exceed 25.0
acr	e-feet per year.
Wor	k must be prosecuted with reasonable diligence and be completed on or before
Proc	of of completion of work shall be filed before August 24, 1988
Арр	lication of water to beneficial use shall be made on or before
Proc	of of the application of water to beneficial use shall be filed on or before
	in support of proof of beneficial use shall be filed on or before
